Chuck Colson - Lies That Go Unchallenged - Free PowerPoint

Lies That Go Unchallenged, adapted from a selection of Charles Colson's (BreakPoint.org) radio commentaries, helps us examine cultural currents in the light of God's truth. This tool will help you and your group gain a full understanding of underlying motives, events, and repercussions of the lies our culture is feeding us. Example: Rights of the Individual Lie #1: We have the freedom of choice to be who we want and to do what we want.

(RATE) Strikes at the Heart of Evolution

Billions of years of time, one of the bedrocks of evolutionary thinking, is once again being called into question. This time it will be challenged by a team of scientists from (or associated with) the Institute for Creation Research (ICR), which has spent the last eight years conducting original research on dating methods and the age of the earth. Known as the RATE team (Radioisotope and the Age of The Earth), these scientists have discovered significant scientific evidence which contradicts the "old earth" model and supports a young earth-as one would expect from a plain reading of the Bible.

The Great News Network Evangelism Boot Camp

What is GNN Evangelism Boot Camp? Let me start by telling you what it's not. This isn't some boring book taught seminar. GNN EBC is a hands-on, role up your sleeves; get in the trenches, big time battle against the most evil enemy ever. EBC is the place where you learn to face your fears and boldly proclaim the Great News that Jesus is Lord. GNN EBC is put on in association with The Way of the Master ministries (Ray Comfort & Kirk Cameron) and is the place where GNN gets to serve God where people learn to put into practice the biblical principals they've learned on the Way of the Master TV show, or the School of Biblical Evangelism. It's where people from all around the world can come together to sharpen their swords and learn how to be a more effective witness for Jesus. It's where GNN trains up highly motivated men and women to join God's great army of evangelist!

The National Pro-Life Action Center Calls For The President To Withdraw The Nomination Of Harriet Miers (Doc)

"The time has come for President Bush to realize and accept that his nomination of Harriet Miers to replace retiring Justice Sandra Day O'Connor on the Supreme Court was ill-advised and he should withdraw her nomination. With 45 million children's lives lost to abortion, the stakes are simply too high to gamble on another 'stealth' candidate. If the president remains reluctant to take this step, then NPLAC believes that Ms. Miers should then remove herself from this process.

Plurality Now Sees Bush Presidency as Unsuccessful - Discontent with Bush and State of The Nation Even Higher (Pew Poll Oct. 13)

President George W. Bush's poll numbers are going from bad to worse. His job approval rating has fallen to another new low, as has public satisfaction with national conditions, which now stands at just 29%. And for the first time since taking office in 2001, a plurality of Americans believe that George W. Bush will be viewed as an unsuccessful president.

Reasons Why it is Very Doubtful that President Bush is a Christian (CuttingEdge.org)

In this hot debate amongst Christian brethren over whether the fruits (actions) of President Bush were of such Biblically "good fruit" nature to allow Fundamental, Bible-believing Christians to consider him "Born Again", I have created a list showing the fruits I have seen since he became a candidate for President in 2000. On the left, I have listed the "bad fruits" I have seen, and on the right, I have listed the "good fruits" he has produced. "Ye shall know them by their fruits" (Matt 7:16).

"Poll: Americans Want Bush Impeached"

This swell supporting impeachment has been a fairly recent phenomenon. "The Ipsos poll shows a dramatic transformation in support for Bush's impeachment since late June ... The Zogby poll conducted June 27-29 of 905 likely voters found that 42% agreed and 50% disagreed with a statement virtually identical to the one used by Ipsos Public Affairs. After the June poll, pollster John Zogby told the Washington Post that support for impeachment "was much higher than I expected." At the time, impeachment supporters trailed opponents by 8%. Now supporters outnumber opponents by 6%, a remarkable shift of 14%." (Ibid.)

Up the Creek: Out to Embarrass Bush Over Alleged Video Stunt, (NBC) "The Today Show" Gets Caught in Stunt of Its Own (Video)

In an apparent effort to draw attention to herself, in yesterday's segment she turned up in hip waders, standing thigh-deep in the flood waters. Taking her act one step further, this morning she appeared on a suburban street . . . paddling a canoe. There was one small problem. Just as the segment came on the air, two men waded in front of Kosinski . . . and the water barely covered their shoe tops! That's right, Kosinski's canoe was in no more than four to six inches of water! An embarrassed Kosinski claimed the water was deeper down the street but that her producers didn't want to let her go there for fear she'd drift away. But Katie and Matt, perhaps peeved by her attempted scene-stealing, couldn't resist ribbing her. Matt: "Are these holy men, perhaps walking on top of the water?" "Gee, is your oar hitting ground, Michelle?" inquired Katie, as she and Matt dissolved into laughter.

The Religion of Peace: Islam Terrorists Committed Over 3081 Deadly terror Attacks Since 9/11

Avian Bird Flu is it a Return of the 1918 Spanish Flu? and if so "Vaccine -- Not Virus -- Responsible for 1918 Spanish flu"

"The army doctors knew all these cases of disease and death were due to vaccination and were honest enough to admit it in their medical reports. When army doctors tried to suppress the symptoms of typhoid with a stronger vaccine, it caused a worse form of typhoid, paratyphoid. But when they concocted an even stronger vaccine to suppress that one, they created an even worse disease - Spanish flu. After the war, this was one of the vaccines used to protect a panic-stricken world from the soldiers returning from WWI battlefronts infected with dangerous diseases." "The rest is history." Yes, history records that over 50 million people died worldwide -- from a disease they caught from a "protective" vaccination! Now you know that the Spanish Flu of 1918 was deliberately created and then spread through vaccinations! But, the "panic-stricken" public demanded a vaccination, not realizing that was the way in which the disease was spreading. Of course, many were also killed when the virus spread from person-to-person as viruses normally do. Will we soon hear that Avian Bird Flu has started in this country in Georgia, within convenient distance of Atlanta, where the CDC has genetically reconstructed the deadly 1918 Spanish Flu virus? People will line up to get this worthless Avian Bird Flu, not realizing the vaccine is full of the 1918 Spanish Flu -- reconstructed.

CorrectBible.com for the SERIOUS Bible Student

The knowledge of Jesus (the Word in the flesh) and the knowledge of the written Word cannot be separated. Academics (knowledge) must lead to Application (wisdom) which must lead to Compliance (obedience). Fundamentally, we must move from carnality to spirituality. The new creature does not destroy the old. They coexist and struggle for control. "Head" knowledge does not change us. "Heart" knowledge is the objective of the teaching gift. ... Teaching draws others into the Word. It allows us to see how we, our families and our churches measure up. It makes others desire to have the peace and joy we have as children of the King. It encourages us to press toward the mark when we've stumbled. It convicts us when we are wrong. We must keep growing and maturing in the Lord because we should all be teachers (Mk 28:20; Heb 5:12) for the purpose of changing the lives of others through the changes in our own lives.

AMSHINOV (Jewish) Blog: Picture Perfect Yom Kippur

Yom Kippur is the holiest day of the Jewish calendar. It is a day of abstention, of prayer and meditation, of introspection, soul-searching and repentance. It is called the Sabbath of Sabbaths - the ultimate day of spirit and serenity. Jews dress in white (men usually wear a white robe called a "kittel" together with a white head covering during the synagogue service; women wear white blouses and/or skirts and no jewelry) as a sign of purity and as a sign of our mortality, for ultimately we are buried in white shrouds. The white garments are also a reminder of the costume of the High Priest worn on Yom Kippur during most of the Yom Kippur service in the Holy Temple in Jerusalem.

Sinister Forces In Early America: A Shocking Alternative To The Conventional View of American History

Harriet Miers - A Question of Judgment

The Chronicle of Higher Education yesterday published a story on Supreme Court nominee Harriet Miers. It spoke of her "playing a key role" in the late 1990s in establishing the Louise B. Raggio lectureship at Southern Methodist University, Miss Miers' alma mater. The article says Miss Miers "pushed for the creation" of the Raggio speakers' series. The Raggio lectureship brought an apparently unbroken string of pro-abortion speakers to the university's Dallas campus. Among those tapped to enlighten young law students were Gloria Steinem, founder of Ms. Magazine and a veteran campaigner for liberal abortion laws. Also holding forth were Congresswoman Patricia Schoeder, Susan Faludi, author of Backlash: The Undeclared War Against American Women, and even former Texas Governor Ann W. Richards, the pro-abortion Democrat whom George W. Bush defeated in 1994. This story needs to be handled with care. The Chronicle is certainly no friend of the pro-life cause and may have exaggerated Miss Miers' role in setting up the lectureship. But the issue does need to be carefully explored. It raises a host of questions about judgment.

9/30/05 Ministry Update Regarding Hurricane Katrina Disaster: Jesse Duplantis Ministries

Here at Jesse Duplantis Ministries, we believe that we are strategically positioned in this part of the world "for such a time as this." God can use us to be a spiritual beacon of light and a financial help to this community - and from this community to the entire world. What do we need right now? Prayer and financial support. Our ministry is just six miles from where the storm and the surge destroyed so much. Whatever you can do to help support our ministry during this time, and to help with the relief effort, is greatly appreciated. We know that God will turn this tragedy around for good - He will bring more people to Him, while causing His children to experience an overflow of His grace, mercy, love, faith, power and blessing in the process.

Friends and Colleagues, We anticipate that within the coming week President Bush will nominate a successor to Supreme Court Justice Sandra Day O'Connor. I urge in the strongest possible way that we send this message to President Bush: 1. You led us to believe that you would appoint justices like Scalia and Thomas. Anything less would be a betrayal of those who voted for you. 2. A Supreme Court candidate whom we will support must have a paper trail that demonstrates a strong commitment to the constitutionalist approach to the constitution. A candidate who skillfully answers questions without telling us anything meaningful, will not be acceptable.

The Bible in Living Sound - Get Your Kids Excited About the Bible

THE BIBLE IN LIVING SOUND, the original dramatized Bible Stories . . . really gets kids excited about the Bible! These spiritually enthralling stories, re-enacted with music and "live" sound effects, leave impressions of lasting beauty and wonder, putting the listener in the Red Sea at the crossing, beside David as he confronts Goliath, with Mary and Joseph in the stable, and there at the foot of the Cross. These stunning nondenominational dramatizations captivate listeners of all ages as they are enriched by visualizing the values taught in God's Word. Listeners want to hear these bible stories again and again.

Is Gaza Burning? A New Media Lexicon - For Media Who Refuse to Report the Truth

The dictionary defines "looting" as "to rob, steal, pillage." But, in its first reports on Gaza, where Palestinian Arab mobs were, well, looting, the New York Times came up with a nifty twist to avoid the L-word. There was no looting going on, only "looking for usable materials." ...

Pro-Life Senator Sam Brownback - Republican, Kansas: Next Supreme Court Pick Must Oppose Abortion

Washington, DC (LifeNews.com) -- Yesterday, leading pro-life senator and possible 2008 presidential candidate Sam Brownback voted for John Roberts' nomination for the Supreme Court. However, he said he hopes President Bush's next nominee for the high court takes a more public stand in opposition to abortion. "The next nominee should let the political branches make political choices and should have a record of devotion to life and liberty that our Constitution protects," the Kansas Republican said at the hearing held just before the Senate Judiciary Committee approved Roberts on a 13-5 vote.

The ACLU vs. America: Exposing the Agenda to Redefine Moral Values (Book for Sale \$15.00)

America is at war with terrorists all over the world who are attempting to destroy Americans and eliminate the American way of life. But there is another war being waged in courtrooms all over the country. This domestic war is one to save American morality and American values from an ever-present domestic influence - the American Civil Liberties Union (ACLU) - that is weakening our democracy. In the new book ACLU vs. America: Exposing the Agenda to Redefine Moral Values [Broadman & Holman, September 1, 2005], Alan Sears and Craig Osten document in vivid detail the ACLU's extremist positions. They trace the history of the ACLU back to the 1920s and its socialist and communist roots to its current legal battles and campaigns.

Calvary Chapel Pastor Chuck Smith: Living Water (PDF & DOC) and Many More ebook Selections

It's critical that we understand this. The Holy Spirit is the primary agent of the Godhead working in the world today. He is the person of the Godhead to whom we relate most closely. He is the One who is gathering a body of believers - the bride of Christ - to present unto the Lord. And the church through the Holy Spirit is doing the work of God in the world.

The Way of the Master - Two Mp3 Messages

{Soundly Saved} --Kirk Cameron-- Who do you know who isn't saved? A friend? Your mother? Your child? Think of their terrible fate if they die without Christ. You want to share your faith, but maybe you're not sure what to say. Or maybe you're afraid. Listen as Kirk teaches you how to overcome your fear and share your faith simply, effectively...the way Jesus did. {True and False Conversion} --Ray Comfort-- This message explains why there are so many divorces, alcohol, drug, and abortion problems within the Church today. Are our churches really filled with true believers?

(RATE) Strikes at the Heart of Evolution

Billions of years of time, one of the bedrocks of evolutionary thinking, is once again being called into question. This time it will be challenged by a team of scientists from (or associated with) the Institute for Creation Research (ICR), which has spent the last eight years conducting original research on dating methods and the age of the earth. Known as the RATE team (Radioisotope and the Age of The Earth), these scientists have discovered significant scientific evidence which contradicts the "old earth" model and supports a young earth-as one would expect from a plain reading of the Bible.

The (Swiss based) Red Cross (finally) to Reconsider Admitting Israel Full Membership in the Organization After a Five Year Denial

On Monday, 123 delegates of the Red Cross from member countries started a delegation that will last over two days to draw a consensus of whether Israel will be permitted membership into the Red Cross, in an effort to revive talks which were halted five years ago, when the Palestinian conflict against Israel began in 2000. The disagreement of admittance centers on whether a red Star of David is permissible to join the Red Cross and Red (Muslim) Crescent as a symbol of the organization.

Truth and Knowledge vs. Lies and Deception: BasicChristian.org

Truth is that which exists and cannot change. The truth is the unchangeable fact. There are basic truths in existence. We exist in physical human form on a planet called the earth. It is an undeniable unchangeable truth that we exist. It is also an undeniable unchangeable truth that physical life exists temporally here on earth. The truth is that all who have lived in the past have suffered physical death; they are no longer physically alive with us on earth. Since there are truths in existence there is a truth that explains life and death here on earth. There can be many theories about how life originated on earth, why and how we exist and why we die, but there is only one unchangeable truth.

'The Sweet Life' Former Avalon Singer Offers Her Testimony

"I had a 10-year relationship that had gone really sour," says Christian singer Cherie Adams, formerly of the group Avalon. "We were like high school sweethearts, and I went from seeing him every day to never seeing each other again." "I was physically sick. I thought about killing myself. Then one day my mother was bugging me to go to church and I said, 'I don't know why I'm going to bother because God doesn't love me anymore. He doesn't know me.'" But Adams went and says her life was forever altered by this single service. Today, Adams travels the country, singing songs, talking about her experiences as a platinum-selling artist in the music business and her life as a Christian, and giving support to other women who have been through similar hardships.

The Jawa Report: Kevin Sites (Reporter of Fallujah Mosque Shooting), You're Still a Traitor

The thing about traitors is that they rarely realize that they have committed treason. Traitors tend to believe either one of two things (or both). First, traitors believe that they are acting in the best interests of their country. They believe that the nation's leaders are taking the country down a terrible path. Therefore, they justify their acts of treason as a higher love of country.

Stopping Hurricanes is it Junk Science?

"US pioneers 'weather control powder'" - "A company in the United States says it has invented a powder which can be used to remove clouds from the sky and even stop the development of hurricanes. They say the new product could help many areas of the world which are subject to extreme weather conditions." (BBC Online)

<http://www.junkscience.com/aug01.htm>

Oil {Soybean Oil} on Troubled Waters may Stop Hurricanes

{Apparently using soybean oil and spraying hurricanes from the top has already been successful.} Sailors who traditionally dumped barrels of oil into the sea to calm stormy waters may have been on to something, a new study suggests. The old practice reduces wind speeds in tropical hurricanes by damping ocean spray, according to a new mathematical "sandwich model". As hurricane winds kick up ocean waves, large water droplets become suspended in the air. This cloud of spray can be treated mathematically as a third fluid sandwiched between the air and sea. "Our calculations show that drops in the spray decrease turbulence and reduce friction, allowing for far greater wind speeds - sometimes eight times as much," explains RESEARCHER ALEXANDRE CHORIN AT THE UNIVERSITY OF CALIFORNIA AT BERKELEY, US. He believes the findings shed light on an age-old sea ritual. "Ancient mariners poured oil on troubled waters - hence the expression - but it was never very clear what this accomplished," says Chorin. Since oil inhibits the formation of drops, Chorin thinks the strategy would have increased the drag in the air and successfully decreased the intensity of the squalls.... The researchers suggest that, during a tropical storm, aeroplanes could deliver harmless surfactants to the ocean surface - reducing surface tension in water and stopping droplets from forming - perhaps preventing a hurricane developing.

http://www.berkeley.edu/news/in_news/archives/20050727.shtml

A New Approach to Hurricane Reduction

Current research into hurricanes seems to focus on the central areas, where the winds are highest, near the "eye". However, even superficial calculation shows that the majority of the kinetic energy contained in a hurricane resides in the huge outer areas. Even though the winds are slower there, the vast quantity of moving air carries most of the energy of movement. This fact has encouraged a new approach at degrading a hurricane, by attempting to cause disruptions in the perimeter of the storm, to cause energy to be dispersed there. This involves NO attempt to "over-power" the hurricane! Rather, it uses the energy that is already in the hurricane by encouraging some of that energy to get "out-of-phase" with the main circulation of the hurricane. This out-of-phase energy becomes disruptive, with the intended result to create many (small) tornadoes which remove kinetic energy from the main circulation of the hurricane. It has long been noticed that, in the late stages of a hurricane's existence, many (brief) tornadoes often appear along their borders.

<http://mb-soft.com/public/hurrican.html>

Stopping a Hurricane with Acoustic Transducers

"If you could develop a detergent to reduce the size of the droplets, you might be able to stop a hurricane," he said. "That's not as far fetched as it sounds. In ancient times, sailors carried oil to pour out on the water to calm storms. Pouring oil on choppy waters was not a superstition." Since we are interested in reducing the size of the droplets, I propose we use acoustic transducers under high power on barges plugged into the power of a nuclear submarine or nuclear aircraft carrier and point them right at or above the cresting waves to cause the water droplets to break apart into smaller droplets, by scrambling their molecular structure once airborne. This does two things, it robs the Hurricane of its barrier between the wind it creates and the relative wind from the local region and it reduces the droplets size and assists in taking the rain away. I propose we fund research in the killing of Hurricanes, rather than paying out 155 Billion Dollars in the aftermath to rebuild after Hurricanes like Katrina. Think on that.

CHURCHES, THE WEB, AND TECHNOLOGY

"Churches have jumped on the technology bandwagon in a pretty big way during the first five years of the third millennium," says the latest Barna report. They explore how many Protestant churches are using ministry tools such as a church website, a large-screen projection system, email communication to members, a satellite dish for receiving broadcasts, or electronic funds transfer for donations. They also examine how many churches provide pew Bibles and use live drama presentations and video presentations in their services:

Dealing with Katrina - and Other Catastrophes in Life

Our guide for dealing with the Katrina disaster should be Dr. Booker T. Washington's speech at the Atlanta Exposition in 1895. Known as one of the most memorable and influential speeches in American history, it is just as timely today as when it was given. Dr. Washington started by telling the story of a ship lost at sea for many days. When it sighted a friendly vessel, it sent a desperate signal from its mast: "Water, water; we die of thirst!" The friendly vessel signaled back, "Cast down your bucket where you are." The lost ship signaled again, "Water, water; send us water!" Again the friendly ship sent the message, "Cast down your bucket where you are." after a third and fourth such exchange, the captain of the distressed vessel finally heeded the injunction and cast down his bucket. It came up full of fresh, sparkling water from the mouth of the Amazon River. Dr. Washington then admonished members of his own race to cast down their buckets "in agriculture, mechanics, in commerce, in domestic service, and in the professions." He cautioned that "in the great leap from slavery to freedom we may overlook the fact that the masses of us are to live by the productions of our hands." "We shall prosper in proportion as we learn to dignify and glorify common labor and put brains and skill into the common occupations of life," he said. "No race can prosper till it learns that there is as much dignity in tilling a field as in writing a poem." "It is at the bottom of life we must begin, and not at the top. Nor should we permit our grievances to overshadow our opportunities."

Roberts Hearings Highlight Democrats' Dilemma

As FRC and others have noted, the Democrat Party is now hostage to extremist groups that have hijacked its agenda and dictate its agenda. That was never more in evidence than at the third day of the hearings on the nomination of John Roberts to serve as Chief Justice. Several such groups testified, and showed just how radical, unreasonable and one-sided they are. For instance, Marcia Greenberger, President of the Women's National Law Center, was forced to admit, under questioning from Senator Orrin Hatch, that her organization had never endorsed a Republican nominee to the Supreme Court. Likewise, Karen Pearl, interim president of Planned Parenthood, weakly defended the fact that they, too, had never endorsed a Republican nominee to the Court by asserting they had not opposed the nomination of Sandra Day-O'Connor. In fact, Senator Jeff Sessions (R, AL) introduced a New York Times article from 2001 that asserted that Greenberger urged the Democrats to change the rules of the game regarding Republican nominees to the Supreme Court - to oppose nominees who were "merely" well-qualified. Sessions suggested Greenberger may be the unacknowledged "mother" of the Democrats' discreditable filibuster tactics against well-qualified women and men nominated by President Bush to the federal judiciary. Pearl and Greenberger asserted that *Roe v. Wade* was beyond question and that Roberts should have endorsed it despite the facts (a) that more than half of Americans disagree with that view, (b) as does one major political party, and (c) while cases challenging various aspects of *Roe's* pro-abortion legacy are pending before the very court on which Roberts is supposed to sit as an impartial jurist. Pearl's and Greenberger's extreme pro-abortion positions seemed even to frustrate abortion advocates Arlen Specter and Diane Feinstein. With the hearings concluded, you can be sure such extremist groups will be pressuring Democratic senators to oppose Roberts and all future nominees from President Bush. Will the Democratic Party continue to listen to them? The Judiciary Committee is scheduled to vote on the Roberts' nomination on September 22, with the full Senate to take a final vote the following week.

An Explanation of Islamic Law, known as "Shariah"

The historical pattern of Islam shows us that when a nation gains a sufficiently large Muslim population, they will begin to agitate for Shariah to be implemented. Shariah is the primary source of persecution for Christians in Muslim dominated states. Shariah is the system of civil law that is based upon the Qur'an and the Ahadith and the work of Muslim scholars in the first two centuries of Islam. Shariah extends beyond just civil law. Applied fully, the Shariah is a code for living that all Muslims should adhere to, including prayers, fasting and donations to the poor. Shariah is the totality of religious, political, social, domestic and private life. Shariah is primarily meant for all Muslims, but applies to a certain extent also for people living inside a Muslim society. Muslims feel that Shariah has been misunderstood by Christians, who have tended to concentrate on the demands for harsh punishments such as amputation of a hand or foot for theft and public flogging for people caught drinking alcohol. Under the Shariah laws in Afghanistan, the Taliban's religious police, formally known as the Department for Prevention of Vice and Promotion of Virtue, enforce the Shariah laws. ... For example, a man's beard must be long enough to protrude from a fist clenched at the base of the chin. If it is not, he is subject to punishment. Under Shariah in Afghanistan, women are not allowed to work in any field except the medical sector. The Islamic law of Afghanistan does not allow the employment of women in government departments or international agencies. Women should not go outside their residences with the exception of those working in the medical sector. Shariah also places restrictions on what women can wear and whom they can see. It forbids women from wearing jewelry and make-up and from making noise with their shoes when they walk. If a woman does work outside the home, she is forbidden to sit beside the driver when traveling to and from work. Stylish dress and decoration of women is forbidden.

Ontario Canada Rejects Use of Islamic Law (Fox)

TORONTO - The premier of Ontario said Sunday that he won't let his province become the first Western government to allow the use of Islamic law to settle family disputes and that he would move to ban all religious arbitration. Ontario's provincial government has been reviewing a report recommending that Shariah, or Islamic law, be allowed to settle family disputes like divorce and had said it would soon make a decision. "There will be no Shariah law in Ontario. There will be no religious arbitration in Ontario. There will be one law for all Ontarians," Premier Dalton McGuinty told The Canadian Press.

Two RSS Camps are Emerging

A distinct division is being created between RSS readers that parse simple RSS and the Dashboards/Sidebars of the world that can make sense of rich content. NewsGator, FeedDemon and Pluck on one side, Google Sidebar, Konfabulator and KlipFolio on the other. While the RSS apps are still very "orange RSS button" centric, this new generation of dashboards tends to downplay the RSS connection (sidebar with "plugins", KlipFolio with "Klips" and Sideshow with "tiles"), focusing their value more on the actual content or service. We're betting on the latter group - the dashboards - to cross into the mainstream. For the most part pure RSS readers will find their places embedded in browsers such as IE and Firefox, and integrated into most email applications where their value as awareness and notification tools will be ambiguous at best.

Palestinians Torch Four Gaza Synagogues

Palestinians wasted precious little time after the IDF officially withdrew from Gaza, before thousands of Hamas and Islamic Jihad supporters set about setting fire to and destroying four synagogues in the former Gush Katif settlements of Morag, Netzarim, Neve Dekalim, and Kfar Darom. Palestinian security forces stood idly by as women ululated, teens set off fireworks and crowds chanted "God is great".

Israeli Cabinet Votes to leave Gaza, and also Not to Destroy Gush Katif Synagogues

The Israeli Cabinet voted unanimously to leave Gaza completely by Tuesday, ending 38 years of IDF presence. Rather than celebrate the withdrawal, Palestinians opted to boycott the official handover ceremony due to dissatisfaction over the Cabinet's decisions to close the Rafah border crossing, and to keep the two dozen synagogues of Gush Katif intact. ... However, Palestinian fear international criticism if they demolish the buildings or if the structures are defaced by Palestinian crowds targeting symbols of occupation.

Find Some Pieces of the Puzzle WeatherWars.info

As a television weatherman I first met this information with skepticism, who wouldn't? Almost completely rejecting the concept that weather modification outside of cloud seeding possible. Additional clues kept creeping in until I came across examples of scalar weather engineering on Tom Bearden's web site. Soon I began looking for my own examples in my own skies. Whoa! There they were! And not just occasionally, but all the time! Examples in highs clouds were the easiest to spot, much less convective turbulence to round out the edges. Mid level clouds. the alto cumulus are now frequently gridded and square. Odd, very odd I thought. Lower clouds, cumulus and stratus, especially in a marine layer environment seem to be the most difficult in which to see the active grid. But it is there.

The Government Can Control the Weather (HAARP)

Lots of people know that Nicola Tesla patented weather influencing machinery before 1910, and explained how it could be used to control weather thousands of miles away. Not only can the technology be used to guide moisture laden air to drought stricken locations, but it can keep moisture away from droughts as well. What can be achieved is a barrier to wind flow called a stationary pressure front, which forces weather away from its natural destination. The modern name for a device of this type is an atmospheric heater, which works by beaming concentrated radiowaves tuned to heat some component of the atmosphere. Many people now know that a stationary pressure front has been sitting off the California coast since 19xx because it is blamed for droughts in recent decades, but few of them also know that stationary pressure regions were unheard of before 19xx, xx years after the USSR finished constructing an atmospheric heater.

Navy: Iraqis Know (1991) Missing Pilot's Whereabouts (CNN)

WASHINGTON (AP) -- A Navy pilot shot down over Iraq in January 1991 may have been captured by Iraqi forces, and members of the former Iraqi government "know the whereabouts" of the officer, the Navy has concluded. A Navy board of inquiry concluded that there is no credible evidence that Capt. Michael "Scott" Speicher is dead, and it reaffirmed his official status as "missing/captured," according to the board's final report. The board also recommended that the Pentagon work with the State Department, the U.S. Embassy in Baghdad and the Iraqi government to "increase the level of attention and effort inside Iraq" to resolve the question of Speicher's fate.

Americans see Gaza-Katrina link 'If we keep pushing (Israel Withdrawal) Road Map, Much Worse is in Store'

"We have watched this for years and every time America makes decisions against Israel we suffer the consequences through disasters," Stines said. Referring to last month's expulsion of thousands of Jews from their homes in Gaza and northern Samaria, Stines said there was "no doubt in my mind that Hurricane Katrina is a result of the decisions we made to remove God's people from their land."

Samaritans Purse: Needs Are Great in Biloxi

Katrina destroyed virtually everything in the city of Biloxi from the beach to about 200 yards inland. Brick homes-which were supposed to be safe in high winds-were flattened. Neighborhoods a little further inland look like war zones. Trees were knocked over, many of them onto-and through-roofs. Art Steinaway is the director of the Seashore United Methodist Camp, about 150 yards from the shoreline. The camp was a popular retreat center for youth and adult church groups, but it will be many years before it's used again. The church and most of the buildings were demolished by Katrina's fury.

Without Open churches, New Orleans Still Prays for Help

NEW ORLEANS, United States (AFP) - It would have been a miracle for a New Orleans church to open Sunday but trapped residents still managed to pray in their shattered homes, emergency shelters and even in a bar. "We don't need a church to pray, the good Lord can hear us wherever we are," said Annie Williams, 62, leaning on the pool table at "Kajun's" pub in downtown New Orleans. "We are praying now," she said.

'Elite' Colleges Not Always Best for Young Christians, Says Home School Advocate (GOPUSA)

(AgapePress) -- A leader in the home-schooling movement is calling on Christian parents to help their children find colleges that are academically excellent -- and faithfully Christian. In his new book -- The Joshua Generation -- Farris examines the philosophical shift made by "elite" universities during the past century. He says Christian parents must thoroughly examine any university or college before their child attends. Parents, he says, need to know what they are dealing with. "We cannot assume that our kids are going to go off to college and that it will be either a positive experience spiritually or a neutral experience," he shares. ... Farris contends that professors at many secular elite colleges twist the truth, the Constitution, and history to support their own agendas and beliefs.

Bush Hails Iraqi Draft Constitution

CRAWFORD, Texas - President Bush strongly endorsed a proposed Iraqi constitution despite failure of U.S. efforts to win backing of the charter by minority Sunni Muslims. "Their example is an inspiration to all who share the universal values of freedom, democracy and the rule of law," Bush told reporters Sunday at a helicopter hangar on his Texas ranch. "This is a document of which the Iraqis and the rest of the world can be proud." {Proud of what, radical Islam taking control.}

Negotiators finished the draft on Monday and took it to parliament as the lawmakers convened minutes before midnight. Freedom of Religion? In Iraq (FRC)

The deadline for an Iraqi constitution came and went on Monday. ... The country has been governed by the Iraqi Transitional Administration Law (TAL) since March 4, 2004. ... The TAL currently protects religious freedom for every Iraqi citizen. However, early drafts of the Iraqi Constitution seriously undermined religious freedom by containing a provision making Islam the "sole source" of Iraqi law, as opposed to "a source" of law under the TAL, there is also a provision that declares unconstitutional any law "repugnant" to Islam. I have sent a letter to President Bush encouraging the Administration to redouble its efforts to ensure that the Iraq Constitution provides genuine religious freedom for all Iraqi citizens. An Iraqi Constitution that does not protect religious liberty will seriously undermine U.S. efforts in Iraq and the larger Middle East. The sons and daughters of Americans are not risking their lives to establish a theocratic government that denies its citizens the fundamental right of religious freedom.

Calvary Chapel Church Planting Mission

Our mission is to evangelise the lost and disciple the saved. We do this by planting churches, and nurturing the churches we have begun. We plant churches by going into cities, holding outreaches, and starting Bible studies. We nurture the churches by returning to those cities for future outreaches and build up the believers through discipleship, conferences, and retreats. Outreaches consist of one-on-one evangelism and large group events such as concerts. Each outreach is different but the goal is always the same: to reach a lost and dying world with the saving Gospel of Jesus Christ.

An Open Letter (from Russia) to Christians of the World

Realize that Russia is in agony trying to find its own way. Western patterns cannot be directly implemented in Russia without proper adaptation. The existing traditional church, the Protestant one in particular, is not meeting the needs of today. We really need the rich spiritual experience of Western churches, but we need the best part of it adapted to the specific conditions of Russia—everything that applies to us.

The Prospects for Religious Liberty in Russia--And How Western Missions Can Enhance Them

Study the history of Russia, which will of necessity include the history of the Orthodox Church. Study Russian literature and art. On the one hand, Dostoevsky and icons, for example, open great windows for understanding the Russian people and their culture. On the other hand, not being conversant on such subjects as Dostoevsky and icons will be taken as an insult, or at best, as a legitimate sign of Western ignorance.

Key Challenges Before the Post-Soviet Church: A Synopsis

The overcoming of an inferiority complex among Evangelicals. Their severe repression and denial of education and professional openings under Communism have left them marginalized and often ineffective in society. Many leaders are reluctant to adapt in the face of cultural and generational change. As a result, many congregations appear irrelevant and unable to address twenty-first-century needs. Evangelicals could have a vital role in restoring moral, ethical, and spiritual standards in a society that has lost its way.

The Order of St. Benedict Has Said This Pope (last Pope) Will Come From Their Order

9. The Glory of the Olive. The Order of St. Benedict has said this Pope will come from their order. It is interesting that Jesus gave his apocalyptic prophecy about the end of time from the Mount of Olives. This Pope will reign during the beginning of the tribulation Jesus spoke of. The 111th prophesy is "Gloria Olivae" (The Glory of the Olive). The Order of Saint Benedict has claimed that this pope will come from their ranks. Saint Benedict himself prophesied that before the end of the world his Order, known also as the Olivetans, will triumphantly lead the Catholic Church in its fight against evil.

More Last Pope Prophecies by BibleProbe.com

Pope Pius IX (1878) "Since the whole world is against God and His Church, it is evident that He has reserved the victory over His enemies to Himself. This will be more obvious when it is considered that the root of all our present evils is to be found in the fact that those with talents and vigor crave earthly pleasures, and not only desert God but repudiate Him altogether. Thus it appears they cannot be brought back in any other way except through an act that cannot be ascribed to any secondary agency, and thus all will be forced to look to the supernatural... There will come a great wonder, which will fill the world with astonishment. This wonder will be preceded by the triumph of revolution. The church will suffer exceedingly. Her servants and her chieftain will be mocked, scourged, and martyred."

Background History and Discussion of (St. Malachy 1094-1148) his Catholic Prophecies Regarding the Popes

The prophecies are consistently accurate, as shown from the following examples published in "The Prophecies of St. Malachy."

(Catholic) Prophecy on Pope Fulfilled by Eclipses?

Pope John Paul II will be buried this Friday during another solar eclipse. Almost ten centuries ago (St. Malachy 1094-1148), Malachy predicted this pope would be noted by an eclipse of the sun. In an eerie coincidence, John Paul II was the only known pope to be born on the day of a solar eclipse.

Malachy's Prophecies - The Last 10 Popes (St. Malachy 1094-1148)

9. [Next Pope] The Glory of the Olive. The Order of St. Benedict has said this Pope will come from their order. It is interesting that Jesus gave his apocalyptic prophecy about the end of time from the Mount of Olives. This Pope will reign during the beginning of the tribulation Jesus spoke of. The 111th prophesy is "Gloria Olivae" (The Glory of the Olive). The Order of Saint Benedict has claimed that this pope will come from their ranks. Saint Benedict himself prophesied that before the end of the world his Order, known also as the Olivetans, will triumphantly lead the Catholic Church in its fight against evil.

Spiritual Wickedness in High Places Malachi Martin on The End of Religion (As We Know It)

Ever since Nimrod and the Tower of Babel, the Power Elite have never given up on their feverish dream of a One World Government. The new ecumenicalism is clothed in Globalist garb. The agenda includes promoting issues like population control, environmentalism and secular humanism, which the plotters hope will eventually lead to the complete secularization of religion.

Pope John Paul II - Rest in Peace

Pope John Paul II transcended national and religious boundaries by calling all people to a life of faith and hope. He will forever be remembered by the first words of his pontificate "Be Not Afraid!"

Nearing Midnight - The End of the World

Whenever a major disaster occurs somewhere in the world, the question is often raised: "Is this part of the end-time birth pangs?" Jesus said the indication of His return would be calamities occurring like the contractions a woman experiences during childbirth. In both cases, the greater the number, the closer we are to the point of the delivery.

Pressing On Part 1: A Musical Look at the Life and Mission of the Apostle Paul May 1, 2005 [PAX TV 7:30 am Sundays]

Join host Larnelle Harris for a musical look at the life and mission of the apostle Paul. Next to Jesus, Paul is arguably the most influential and controversial figure in the Bible. He authored nearly one half of what we know as the New Testament, and it was through him that the Christian faith spread beyond the walls of Jerusalem. Larnelle is joined by musical artists Travis Cottrell, Corey Emerson, Michael O'Brien, and the group First Call. Join us this week on Day of Discovery for part one of "Pressing On."

1996 Reuter News Regarding the Possible Next Pope - Hebrew Pope in Waiting

Sept. 18, '96 Reuter news regarding the possible next Pope. We quote, "France's top Roman Catholic was born a Jew. His mother was arrested by the Nazis and died in the Auschwitz extermination camp...Pope John Paul's visit to France will cast a spotlight on Jean-Marie Lustiger, 70 the cardinal-archbishop of Paris, named by some Vatican watchers as an outside contender to succeed the ailing pontiff. A personal friend of the Polish pope, the son of Polish refugees converted to Christianity while he was hidden in Catholic boarding schools during the 1940-44 German occupation." Perhaps this will turn out to only be idle speculation, or then again time may reveal a Hebrew pope .. "

Others are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves. So there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations. It's real, and that's the reason why we have to intensify our efforts, and that's why this is so important.

Is Intelligent Design (Science) Getting an Intelligent Hearing?

In a New York Times editorial Design for Living, published Feb. 7, Dr. Michael Behe, recognized as one of the most authoritative spokesmen for the Intelligent Design (ID) movement wrote, "The strong appearance of design [in nature] allows a disarmingly simple argument: if it looks, walks and quacks like a duck, then, absent compelling evidence to the contrary, we have warrant to conclude it's a duck. Design should not be overlooked simply because it's so obvious."

Does a Quid Pro Quo Deal Exist in the Schiavo Case?

In the case of (Judge) Greer, not only did all of Michael Schiavo's lawyers contribute to his campaign, but allegations have surfaced that Greer may have solicited such contributions which gives even further cause for Gov. Bush to order an investigation of Greer and his 1998 and 2004 election campaigns. Rotunda said that judicial campaign contributions constitute or appear to constitute a tacit quid pro quo where the judge favors or tilts towards the contributor-litigant.

When Life Becomes an Inconvenience

In October, 1939, Hitler ordered "mercy killing" of the sick and disabled, mainly children. The sentiment was to eliminate "life unworthy of life"--kids who would become an inconvenience if they lived. The deaths would soon include adults who were also inferior, feeble, or just too much trouble. The Nazis made decisions without diagnoses or medical records. They were a part of a barbaric system, and yet when the death camps were finally liberated, many felt that such atrocities were finally thrown on the ash heap of history. They don't understand human nature or the Bible: Only when Satan is cast into the pit will evil end. In the meantime people who stand for righteousness are doing all we can to check it. No, America isn't Nazi Germany! Yet what is happening here makes me very uncomfortable.

Is the FBI/CIA Infiltrated by Islamists?

It's time to worry when the Federal Bureau of Investigation, America's national police agency, consistently cannot figure out who's friend and who's foe in the war on terror. The bureau's record of honoring the wrong American Muslims captures this problem. In February 2001, it promoted Gamal Abdel-Hafiz, a special agent who rejected a counterterror assignment on the grounds that "a Muslim does not record another Muslim." In September 2003, the FBI nearly bestowed its Exceptional Public Service Award on Imad Hamad of Detroit, saved from this embarrassment by columnist Debbie Schlusel, who exposed Hamad in the New York Post as someone who "supports terrorism and [who] was himself a suspected terrorist." ...

Left-handed people are also left-eyed. Most left-handed people have the left eye dominant and most right-handed people have the right eye dominant. When left-handers concentrate on something, they tend to partially close the right eye. And in a natural position, their right eye seems slightly smaller than the left eye. The opposite is true for right-handers. Look at the picture of the bearded guy above and see in which hand he is holding his beard. Look at his eyes. If this guy is Saddam, what force on the earth has turned him left-hander all of a sudden! Saddam is right handed.

White House Blogger is Liberal Political Net Consultant

Web log author Garrett M. Graff made Internet history when he became the first blogger to post from the White House briefing room this week. But, in a letter to the White House seeking temporary press credentials, the "non-partisan and independent" blogger did not divulge his current position with a politically "progressive" Internet consulting firm that has liberal politicians and activist groups as clients. Of the 16 team members listed on EchoDitto.com's site, Graff is one of 14 who previously worked on staff or volunteered with the Howard "Dean for America" 2004 presidential campaign. .. the overwhelming majority of the firm's clients are liberal organizations like Air America Radio, liberal political candidates and office holders such as Sen. Barack Obama (D-Ill.), and liberal activist groups such as the Campaign for America's Future.

Dan Rather Agent of Disinformation Starting with the JFK Assination

Dan Rather, at the time an unknown newscaster from a small market Texas TV station, viewed the Zapruder film, then described it to America on the CBS network. As this recording of that broadcast shows, Rather lied to all of America in claiming that the head shot pushed John F. Kennedy's head forward. Rather's meteoric rise to network status and stardom soon followed.

Another Look at the Intifada Fraud Story

An IDF investigation and re-enactment appears to show conclusively that the 12-year-old boy from Gaza, Muhammad al-Dura, was not shot by Israeli soldiers - but was rather the victim of a cruel plot staged by Palestinian sharp-shooters and a Palestinian television cameraman.

<http://www.eretzyisroel.org/~ginsburg/aldura/>

The Most Damaging Story of the Intifada was a Fraud

And yet, it was nothing but a hoax. For those readers who recognize the famous image reproduced here, it might be difficult to believe that the scene was actually staged. (see accompanying illustration -- WSJE Nov. 26, 2004) I will elaborate later how it has been proven that Israeli soldiers could not have killed the boy. Some might ask why it still matters. Haven't too many innocent people on both sides died since then, and is it not time to look ahead now? Well, it matters for exactly those same reasons.

It's critical that we understand this. The Holy Spirit is the primary agent of the Godhead working in the world today. He is the person of the Godhead to whom we relate most closely. "Enter ye in at the strait gate."—Matthew 7:13. MILLIONS OF MEN are in the outlying regions, far off from God and peace; for these we pray, and to these we give warning. But just now we have to do with a smaller company, who are not far from the kingdom, but have come right up to the wicket gate which stands at the head of the way of life. One would think that they would hasten to enter, for a free and open invitation is placed over the entrance, the porter waits to welcome them, and there is but this one way to eternal life.

Calvary Chapel - West Oahu Hawaii: Audio Archives

Calvary Chapel West Oahu has been formed as a fellowship of believers in the Lordship of Jesus Christ. Our supreme desire is to know Christ and to be conformed to His image by the power of the Holy Spirit. We are not a denominational church, nor are we opposed to denominations as such, only to their over-emphasis of the doctrinal differences that have led to the division of the Body of Christ.

McCorvey to High Court: Overturn Roe vs Wade

The woman whose case became the basis for the controversial 1973 Supreme Court decision to legalize abortion is petitioning the court to have the ruling overturned. Norma McCorvey, known as Jane Roe in court filings, told the Fox News Channel's "Hannity and Colmes" on Monday, "We're going to be filing a Motion 60 brief tomorrow with the Supreme Court and ask and plead and beg them to please overturn Roe vs. Wade."

Weighing Christian Diets

The theology behind weight loss programs is worth examining because ultimately the real purpose of many Christian weight-loss programs is not losing pounds but gaining intimacy with God. It is that possibility that draws many Christians in the first place. It is not that they spurn the secular plans. Nancy Dilts, for example, spent a decade on Weight Watchers but gained the pounds back because she felt she wasn't motivated. For many of the faithful, faith-centred weight loss offers more than weekly weigh-ins, prepared meals and pep talks. Some say it has made them better Christians by focusing on their God-given bodies and the food He has created.

U.S. knew Mosul attack [was] suicide Contradicts initial claims of rocket attack on mess hall

The U.S. Army was immediately aware the explosion that killed 22 people in a military mess hall in northern Iraq last week likely was caused by a suicide bomber and not a rocket attack, and mortar attacks may have been planned to coincide with the arrival of casualties, the chief emergency room surgeon who treated the injuries told WorldNetDaily.

The Incredible 9-11 Evidence We've All been Overlooking

We have entered the Age of the Conjurer and it is going to be a tricky time. The 9-11 stunt was a huge magic trick and we all bought it at first. Magicians can be very convincing. You have to look very hard to see the trick and not be fooled. On this occasion slow motion exposes the sleight of hand, but remember how the magician works: he can make almost anything seem real if he can make his audience look in the wrong place at crucial moments.

Bible Verse of the Day

But in fact God has arranged the parts in the body, every one of them, just as he wanted them to be. If they were all one part, where would the body be? As it is, there are many parts, but one body. 1 Corinthians 12:18-20/NIV

Is it an understatement to say that this is a massive conflict of interests? Of course not for HarperCollins. It's great for the bottom-line. Play both sides.

End Time Signs in Nature

The Bible says that in the last days there would be signs in the sun, moon, stars, etc. as well as an increase in natural disasters. These signs would be like "birth pangs" to warn of the lateness of the hour, although they would manifest more profoundly during the Tribulation. We see their increase, however, in our day. They serve as a warning and in some cases as judgments from God before the Tribulation.

THE ANSWER: WHAT IS THE GOSPEL?

There is a wonderful book which contains everything we need to know to live our lives the way our Creator intended (II Timothy 3:16,17). There are countless truths to live by found in this book, God's message to mankind, but if we were to boil everything down to its most basic message, this book, the Bible, makes three things clear...

From Ordinary to Great [Small Group Ministry]

So often, we think that in order to build community or reconnect with God we need to do things that require a great deal of equipment, preparation, and resources. We often feel like spiritual amateurs, and the idea of leading a small group or ministry, of taking others on a spiritual adventure, can seem daunting. But in today's featured article, "From Ordinary to Great," Lifetogether's Brett Eastman reminds us that God's in control of our communities, and the only piece of equipment we really need is an open heart.

Hope: A Better Day is Coming (Modern View - New Zealand)

Hope means that our future as believers does not have to develop from what is presently possible, but from what is possible for God. Christian hope is essentially creative; it believes and expects new things. We believe in a God who says "Behold, I make all things new" (Revelation 21:5), a God "with whom all things are possible" (Matthew 19:26), a God who "gives life to the dead and calls into existence the things that do not exist" (Romans 4:17). Hope is optimistic in the best sense. It opens us to genuinely new realities and experiences, revealing new possibilities for us who believe, delivering us from despair, and freeing us for loving service and hope-filled mission in society.

Faking Church Do we really want to serve God - or is it more rewarding to just look the part?

Ned sits down next to his wife, Tanya, in the church his family has called home for many years. He smiles, waves, jokes, and engages in friendly banter with everyone around him. He is a fixture in the church, having been involved in leadership for many years. Ned is well known, well liked, and deeply admired for his spiritual life. Frank, one of the men he has discipled, waves to him from across the church. Ned smiles and waves back. He remembers sharing with Frank how to live the Christian life. Suddenly he feels a pang of guilt.

The World's #1 Christian Broadcaster --TBN---Shifts to Digital and "Multicasts" its Channels Simultaneously to Viewers

December 15 (Los Angeles)-----In 1996, the Federal Communications Commission declared a new era in television-the mandatory shift from analog to digital television. In line with the FCC's declaration, the Trinity Broadcasting Network (TBN), the world's most watched faith network, is taking steps to ensure that all TBN viewers partake in the full benefits of this television revolution. "Multicasting means that viewers will have access to all four of our channels, not just one," says Crouch. "They will see TBN, JC-TV, Church Channel and TBN Enlace and soon other channels such as "Smile of a Child" for younger viewers and a Christian channel in Arabic, which is currently in devolvement."

Preliminary Report: The Incidence Rate of Odometer Fraud April 2002 (Higher Fraud Now Especially at Car Lots)

That is a 3.47 percent chance that a vehicle would have its odometer rolled back at any point during the first 11 years of its life. There are approximately 452,000 cases of odometer fraud per year in the United States. This study also estimates the difference between the inflated prices that consumers actually paid for the rolled-back vehicles and the prices they would have been willing to pay if they had known the true mileage. Those costs average \$2,336 per case of odometer fraud. Given 452,000 cases per year in the United States, that amounts to \$1,056 million per year.

Savings Strategies: Buy a used Car and {pay cash}

On average, American families spend more than \$7,000 a year on motor vehicle costs. A significant number of families spend well into five digits each year. To help families cut those costs, America Saves has developed a new brochure, "America Saves on Car Purchases." The brochure addresses the four key issues related to car purchases "whether to buy, what to buy, how to buy, and how to finance."

Family Survival Overcoming Consumerism Two Families Compared (Liberal Agenda but Interesting)

Two families, compared-each having the same income and basic housing situation in the same community can be used to illustrate the negative effects of consumerism and the healthy effects of actively avoiding it. This is not a study of good and evil, merely of behavior and its consequences. One family (The Ables) makes careful decisions about their economic and social activities and thus are working for their own self preservation. Even while spending little and saving much they can live well and enjoy their surroundings while they strengthen their community and thus the nation. The other family (The Binges) blindly goes on its way leaving a trail of social and spiritual destruction in its wake. They consume and spend and go deeper into debt. Things just happen to them, life seems out of control, because, for them, it is.

REPORT SAYING BABIES DON'T FEEL ABORTION PAIN EARLY - COMES UNDER FIRE

Berkeley, CA (LifeNews.com) -- A new report from researchers at the University of California says unborn children do not likely feel the pain of abortions during the earlier parts of a woman's pregnancy. The findings are coming under fire from doctors who specialize in fetal development and they say it's off the mark. ... Dr. Anand said other medical studies conclude that unborn babies are "very likely" to be "extremely sensitive to pain during the gestation of 20 to 30 weeks." "This is based on multiple lines of evidence," Dr. Anand said. "Not just the lack of descending inhibitory fibers, but also the number of receptors in the skin, the level of expression of various chemicals, neurotransmitters, receptors, and things like that." Anand explained that later-term abortion procedures, such as a partial-birth abortion "would be likely to cause severe pain."

No Vote Yet on Iraq Constitution (Fox)

Negotiators finished the draft on Monday and took it to parliament as the lawmakers convened minutes before midnight. But they decided to put off a vote and spend three more days smoothing out some unresolved points because of fierce resistance from Sunnis over issues including federalism - which Sunnis fear could cut them out of most of the country's vast oil wealth.

Freedom of Religion? In Iraq (FRC)

The deadline for an Iraqi constitution came and went on Monday. ... The country has been governed by the Iraqi Transitional Administration Law (TAL) since March 4, 2004. ... The TAL currently protects religious freedom for every Iraqi citizen. However, early drafts of the Iraqi Constitution seriously undermined religious freedom by containing a provision making Islam the "sole source" of Iraqi law, as opposed to "a source" of law under the TAL, there is also a provision that declares unconstitutional any law "repugnant" to Islam. I have sent a letter to President Bush encouraging the Administration to redouble its efforts to ensure that the Iraq Constitution provides genuine religious freedom for all Iraqi citizens. An Iraqi Constitution that does not protect religious liberty will seriously undermine U.S. efforts in Iraq and the larger Middle East. The sons and daughters of Americans are not risking their lives to establish a theocratic government that denies its citizens the fundamental right of religious freedom.

Jesus said, "As in the Days of Noah" Violence Filled the Earth

Jesus spoke far ahead of his time relating to us what life would be like just prior to his coming. He says in Matt. 24:37-38: "But as the days of Noah were, so also will the coming of the Son of Man be."

<http://www.letusreason.org/Proph.8.htm>

AS IT WAS IN NOAH'S DAY

The Lord Jesus Christ informs us that before He returns certain conditions will exist in society in general. These conditions are a sign to believers that His Second Coming is near. There has always been corruption in society, but the idea here is of such decadence and depravity reaching the point of no return. The Lord makes use of two Old Testament characters to illustrate the characteristics and conditions that will exist at all levels of humanity prior to His Second Coming. As it was in the days of Noah and as it was in the days of Lot.

An investigation by the federal Office of Special Counsel has confirmed that Mr. Sternberg was subjected to "retaliation . . . in many forms," including the spread of lies about him both within and outside the Smithsonian. In fact, Sternberg says that he was virtually driven out of the building, because "they could not guarantee me that they could keep order." A Prayer For Israel Psalm 83 [Flash]

A Christian flash show based on Psalm 83, as intercession for Israel.

Withdrawal Pains in Israel: Where is the Outrage?

Delusion has never run so rampant. In spite of months of prayer and protest by Jews and Christians, more than 1,700 Israeli families are going to be forced off of 300 square miles of their God-given land (Gen. 17:8). So "judenrein" (free of Jews) does it have to be that even buried Jewish bodies will be exhumed from this area and buried elsewhere in Israel. This is grievous for biblical reasons, but it also flies against the Bush policy on terror, and actually is but a giant reward for the terrorists. As the final hours tick away, Hamas, Islamic Jihad, Hezbollah, and other terror factions even with the PA/PLO have promised to continue to terrorize Israelis even after the pull-out. And all of this thanks to the U.S., Great Britain, the U.N., the E.U., and Russia.

'Embryonic-Like' Cell Discovery Could Affect Ethics Debate

(CNSNews.com) -- A reported breakthrough in stem cell research may lend new weight to the campaign against the use of human embryos in research, one of the most pressing ethical controversies facing governments in the U.S. and elsewhere. American and British researchers say that they have found, in umbilical cord blood, a new type of cell -- neither embryonic nor "adult" -- which is more versatile than the latter while avoiding the ethical dilemmas surrounding the former. {This is not a new discovery and Pro-Life groups have all along said to use these better cells from the umbilical cord blood or else use adult cells in both cases they are better cells for patients and in both cases there is no harm to any baby. It is disturbing to see that with all this evidence scientist still insist on harvesting stem cells from babies.}

Israel Gaza Pullout - Awash in Prayers and Tears

The miracle never came. Israelis across the nation gazed and gaped at heartrending scenes from Gaza that played out on their television screens from early Wednesday, the first day of the "forced evacuation" of Jews from the homes many had lived in for more than half a lifetime. There were many images, and there will be many more of them before this is over. While isolated incidents of individual resistance were reported, the vast majority of Gaza's Jews left in pain, but with great dignity.

Church Web Evangelism - An Opportunity Lost?

by Gary A. Snow: I have visited many church websites, however, most of them fail to use it effectively. Being married to a web designer I've picked up on some of the nuances of good website design and effective web ministry. As I scan the various church web sites, they are all the same. No, they may not look exactly alike and the pictures sure are different, but the message is the same - "This is our billboard, in case you want to come here. ... " What I'm getting at is, "What a waste of an opportunity to spread the good news of God's great love and forgiveness." The Apostle Paul would have used every method available to him - as he in fact did - to spread the Word of God and the good news of redemption through Jesus Christ His son. I think Paul would have screamed out God's message from his web page. Paul's web page would not be filled with social news, but news of the redeeming power through the blood of Jesus, our Savior. I am sure there would be instructional, and perhaps mundane announcements of his meetings or church news, but the thrust of the page would be to gather new converts and members to the Lord's supper. It would be a message to compel people to come and hear more, not to simply invite them.

Thirty One Days of Scriptural Prayer for Israel

When the Lord Jesus walked on the earth, He linked His departure as well as His coming again with the City of Jerusalem! ... The Scriptures are clear that Israel as a Nation and as a People have been blinded by God for the sake of the salvation of the Gentiles. Therefore, the Church owes them (Jews) a debt for this, as well as for the (Bible) Scriptures themselves.

Eternity in Their Hearts (Missionary-Witness)

Don Richardson defined the concept of redemptive analogy in his books "Peace Child" and "Eternity in Their Hearts." He explained how, embedded in any culture, there is usually some practice or understanding which can be used to demonstrate the Gospel. Findings these sometimes unexpected keys has been called a [gorilla moment].

<http://ied.gospelcom.net/eternityintheirhearts.php>

Gorilla Moments - Recognize Hidden Opportunities for Creative Evangelism

A 30-second film shows six people playing basketball, three in white shirts and three in black. Volunteers are asked to count the number of times the white shirt team pass the ball. At the end of the film, they are asked if they saw anything unusual. Most do not. The unusual thing is: halfway through the film, a man wearing a gorilla suit walks through the players, beats his chest to the camera, then walks off. When shown the film again, people are utterly amazed to see this, to the extent that they often believe a different film has been substituted for the original one. Their focus on one task has blinded them to a truth. The film illustrates a simple fact – that if we are only looking for one thing, we do not usually see anything different. This forms the basis of Professor Richard Wiseman's new book: Did You Spot The Gorilla: How to Recognise Hidden Opportunities. {The point at which people finally see the unexpected is what he calls a 'gorilla moment'.}

Redemptive Analogies - Communicating Christian Meaning (Lot's of Links)

Of course, the idea was not really new. Jesus used the technique all the time in His story-telling: "The kingdom of God is like ..." Many of the prophets used it too, and preachers down the years. The gospel stories are so familiar to us, that we completely overlook the fact that Jesus' method of communication was totally revolutionary, used redemptive analogy within story-telling, and was something very close to street theater. The concept of redemptive analogy is a part of contextualization - that is, presenting the Gospel in terms which relate to the particular culture. For two valuable pages on understanding contextualization, see: (Strategic Network) and (Mission Review).

<http://ied.gospelcom.net/dayframeforlinks.php?id=http://www.gospelcom.net/guide/resources/redemptive.php&referrer=/eternityintheirhearts.php&des=Using%20redemptive%20analogy>

Evolution History it ain't

The program, which displayed more candor than others which promote the evolutionary worldview, admitted that the fossil record is built on the "tiniest fragments of the past." At the same time, however, it confidently declared that the puzzle of human origins has been "finally pieced together." Words like "suggest," "if," "it is also believed" punctuate the TV program, as the apemen are built one speculative bone at a time. In the end, though, and employing just a little critical thinking, the thoughtful viewer is able to see that these apemen are instead really just {straw men}, created out of the minds of evolutionist scientists.

Families of U.S. soldiers wounded in the war against terrorism are receiving free airfare so they can be with their loved one through medical rehabilitation and the gifts come from their fellow Americans. The Fisher House Foundation inaugurated this program in January 2004, which allows average Americans who have accumulated travel miles with a participating airline to donate them to wounded soldiers and their families. Since the beginning of last year, more than 525 million miles have been donated, resulting in four thousand tickets for the family members of wounded soldiers.

Kansas moves to stem role of evolution in teaching (CNN)

OVERLAND PARK, Kansas (Reuters) -- After months of debate over science and religion, the Kansas Board of Education has tentatively approved new state science standards that weaken the role evolution plays in teaching about the origin of life. The 10-member board must still take a final vote, expected in either September or October, but a 6-4 vote on Tuesday that approved a draft of the standards essentially cemented a victory for conservative Christian board members who say evolution is largely unproven and can undermine religious teachings about the origins of life on earth. "We think this is a great development ... for the academic freedom of students," said John West, senior fellow of the Discovery Institute, which supports intelligent design theory.

Lutheran Architecture: How a (Church) Building Reflects Theology

One of the verses of Nicolai Grundtvig's hymn, "Built on the Rock (Jesus) the Church Doth Stand," says: Here stands the font (Baptismal) before our eyes Telling how God did receive us; The altar recalls Christ's sacrifice (cross) And what His table (communion bread/wine) doth give us; Here sounds the Word (Holy Bible Scriptures) that doth proclaim Christ yesterday, today, the same, Yea, and for aye our Redeemer. ... In this verse Grundtvig expresses something many Lutherans take for granted: the layout of their church.

With 100 percent of the precincts reporting, unofficial results show that over 75 percent of the voters voted to keep the cross and war memorial in yesterdays voting.

Why Abortion is Genocide

Likewise with abortion, Butler & Walbert note in *Abortion, Medicine and the Law, Facts on File, 1992*, that the Court in *Roe vs. Wade*, supra at 153, "... build its doctrinal framework on the constitutional right to privacy, which it thought ' broad enough to encompass a woman's decision whether or not to terminate her pregnancy.' Dr. David Menton (Parts 1-4): A Hollywood History of the Scopes (Monkey) Trial {80th Anniversary} (Audio)

Dr. Menton's presentation on the Scopes Trial couldn't have been more timely since last week was the 80th anniversary of this famous trial, known as the "Monkey Trial." Most of what we know about the Scopes Trial has been confused with Hollywood's version which was made into a play and movie, *Inherit the Wind*, said Menton. Throughout this enlightening presentation, Dr. Menton used various clips from the movie to show how the truth was grossly distorted to shed a negative light on Christians. By turning the trial into a docudrama, and by changing the names of the characters (but cleverly using the same number of syllables in each name), Hollywood took artistic license to turn the truth on its head. Sadly, the movie is still being used to deceive a whole generation with its countless distortions and inaccuracies.

The Importance of Understanding the "End Times" By Jan Markell

To be perfectly honest, I am growing weary of the many voices I hear saying that the world makes no sense today. It makes perfect sense if one understands the proper eschatology or doctrine of the "last days." The problem is that there is either little or no interest in the topic or it is being taught improperly. Why is it that even the History Channel, A & E, Discovery Network, etc. are paying more attention to it than the churches? In most churches it was shelved 20 years ago as "controversial," "divisive", and "gloom and doom." What is gloom and doom about the fact that the King is coming? Hanging on to this "blessed hope" (Titus 2:13) should be able to get the believer through most any trial.

Creation vs. Evolution: Resources and Information

What is the significance and meaning of God's creation plan? Genesis 1:1 In the beginning God created the heaven (sky) and the earth. Genesis 1:27 So God created man in His own image ...

U.S. won't cede control of (Internet) Net computers

Associated Press, by Anick Jesdanun 6/30/2005 NEW YORK - The U.S. government said Thursday it would indefinitely retain oversight of the Internet's main traffic-controlling computers, ignoring calls by some countries to turn the function over to an international body. The announcement marked a departure from previously stated U.S. policy... Though the computers themselves - 13 in all, known as "root" servers - are in private hands, they contain government-approved lists of the 260 or so Internet suffixes, such as ".com."

The Origin of Comets

Comets may be the most dynamic, spectacular, variable, and mysterious bodies in the solar system. They contain even organic matter which many early scientists concluded was "decomposed organic bodies." Today, a popular belief is that comets brought life to Earth. Instead, comets may have traces of life from Earth.

The Origin of Asteroids and Meteoroids

The "fountains of the great deep" launched rocks as well as muddy water. As rocks moved farther from Earth, Earth's gravity became less significant to them, and the gravity of nearby rocks became increasingly significant. Consequently, many rocks, assisted by their mutual gravity and surrounding clouds of water vapor, merged to become asteroids.

Bible Marathons a Race Like No Other

Bible marathons are a growing trend in Portland. Less than 800 students attend Multnomah Bible College and Seminary, but in the past two years more than 250 of them have participated in marathons, logging in some 200 hours of Bible reading. Bible marathons have become so popular that Multnomah professor Dr. Garry Friesen, who organizes the events, can barely keep up with the demand. Marathons fill within days of the initial announcement.

FROM SKEPTICISM TO WORSHIP: A PERSONAL TESTIMONY

I was a devout atheist for over twenty years. In July of 1998, I finally managed to see the biblical truths that had managed to elude me. The following is an account of how I went from hardcore skepticism to hardcore worship of the Savior, Jesus Christ.

How the Tanners became Christians {Ex-Mormon}

Jerald and Sandra Tanner were raised in the LDS faith, both with a strong Mormon family history. Jerald is the great-great-grandson of John Tanner, well known for his sizeable financial contributions to Joseph Smith and the LDS church in 1835 when the church was deeply in debt. Sandra Tanner is a great-great-granddaughter of Brigham Young, the second president of the Mormon Church.

Ten Ways to Ruin Short Term Mission Trips

Believe it or not, it's possible to have a bad short-term missions experience. Most times, this is not the fault of the situation or organization. Often, the root cause is the short-termer's own attitudes and expectations. To help you maximize your short-term experience, here's a Top Ten checklist of what "not" to do.

Dying Testimonies Of Saved And Unsaved People

170 -- "OH! THE DEVIL IS COMING TO DRAG MY SOUL DOWN TO HELL!" N. M. Nelms, of Kopperl, Texas, sends us this very sad experience. He says: Miss A____, who lived at C____, in Georgia, was taken very sick, and was informed that she could not live. Realizing the way she had lived, surrounded by her ungodly associates, with whom she had indulged in the pleasures of sin, and how her parents had educated her to follow the fashions of the world, and decorated her in gay clothing, and turned her away from the truth of God, she called her ungodly father to her bedside and said, "Your heart is as black as hell. If you had taught me to live for God, rather than to have spent your time quarreling with mother, I might have been saved." Then, turning to others who stood by her dying bed, she plead with them, saying, "Do not follow my ungodly example; do not do as I have done; do not enjoy or indulge in the hellish pleasures of the world. Oh, if I had heeded the warnings of my friend who lived a holy and devoted life." Then she said, "Oh, the devil is coming to drag my soul down to hell! Don't live in pleasure and be found wanting, but live in Christ complete and wanting nothing. I am lost, lost forever! Oh, lost, lost, lost!" -- then died.

"Justice Sunday II." Its theme--"God Save the United States and this Honorable Court"--is the call to order (actually a prayer) that begins every session of the U.S. Supreme Court. Yet ironically, the decisions of that Court in recent decades have served to largely bar the public invocation of divine help-- which the founders of our country knew was essential to its success. The recent decision banning display of the Ten Commandments in a Kentucky courthouse was only the latest example.

Harry Potter's World

Well, it's not quite that simple. You see, Harry and all the friends in his imaginary world are witches and wizards. They try to do good things and defeat evil, but in reality, there is no such thing as a good witch or wizard. People who use witchcraft in the real world are not getting their power from God. The Bible tells us that any power that doesn't come from God is evil. So, for our own protection, God tells us not to do these things:

Family Research Council - Washington Update: Fabian Tactics

In 209 B.C., the Roman General Maximus Verrucosus Fabius ultimately defeated the superior forces of the conqueror Hannibal, the famous Carthaginian military leader, through delay tactics thereby avoiding direct conflict and giving Rome sufficient time to muster a large army. Thus was born the phrase "to win like Fabius," meaning to wear out an opponent by delay and evasion rather than confrontation. I recite this ancient history lesson to highlight the Fabian tactics being used by the Democrats in a vain attempt to find any obscure memorandum that President Bush's Supreme Court nominee, John Roberts, once wrote and to use that memo to attack the nominee.

Daniel's 70 Weeks: The Precision of Prophecy

To fully appreciate the remarkable significance of the following article, it is essential to realize that the Book of Daniel, as part of the Old Testament, was translated into Greek prior to 270 B.C., almost three centuries before Christ was born. This is a well-established fact of secular history.

Prophecy Watch: The Prophecy of the 70 Weeks

God revealed to Daniel a calendar which foretold the time frame of Jewish prophetic history to the end of this age (Dan. 9:24-27). This most remarkable prophecy has been called "nothing less than a mathematical demonstration" of the divine inspiration of the Bible.

http://www.prophecywatch.com/articles/70_weeks_prophecy.htm

Seventy Prophetic Weeks of Daniel

Chapter 9 of the book of Daniel stands as the paragon of Bible prophecy. This single chapter of 27 verses proves beyond doubt that God revealed the future course of world events to faithful men of God, and they wrote about events to come as they were led by the Holy Spirit. This was declared by the apostle in 2 Peter 1: 19-21.

<http://www.ldolphin.org/70weeks.html>

The Prophet Daniel's 70 Weeks: Is Prophecy Sealed?

The "70 Weeks" prophecy of Daniel {chapter 9} is rightly called the "backbone" of Bible prophecy, as it clearly foretells the coming of the Messiah, the focal point of history for believers. This prophecy links together the past history and future of God's people, and it "seals up" other prophecies.

Encyclopedia: Identity Document

An identity document is a piece of documentation designed to prove the identity of the person carrying it. Unlike other forms of documentation, which only have a single purpose such as authorizing bank transfers or proving membership of a library, an identity document simply asserts the bearer's identity. If an identity document is in the form of a small standard-sized card, such as an ISO 7810 card, it is called an identity card. In general terms, documentation is any communicable material (such as text, video, audio, etc. ... In philosophy, it is important to distinguish between two senses of identity, qualitative identity and numerical identity. Identity cards can be controversial, as depending on the way they are used by government (under which circumstances they must be produced; whether/how information about use is stored on databases) can make government surveillance of citizens much easier.

The Supreme Court wrapped up one of its most disappointing terms in years. Plagued by Chief Justice Rehnquist's absence due to illness, the other justices behaved like the gang that cannot shoot straight. The Court banished the Ten Commandments from courthouses in *McCreary County v. ACLU*, and ruled against private property in *Kelo v. City of New London*. The term would have been a complete disaster if Justice Breyer, a Clinton-appointed, had not surprisingly voted to save the Ten Commandments displayed on the Texas State Capitol grounds in *Van Orden v. Life News: REHNQUIST MAY NOT RETIRE WITH O'CONNOR LEAVING SUPREME COURT

Washington, DC (LifeNews.com) -- For months, political observers in Washington and around the nation were convinced Supreme Court Chief Justice William Rehnquist was planning to step down from the nation's high court. With Justice Sandra Day O'Connor announcing her own retirement, the plans of the ailing conservative court leader are in doubt.

American Center for Law and Justice (ACLJ): Justice O'Connor Retires

The resignation of Justice Sandra Day O'Connor creates the MOST CRITICAL VACANCY POSSIBLE on the Supreme Court of the United States. The resignation of Justice O'Connor creates a pivotal shift on the Supreme Court. Justice O'Connor has represented the swing vote in determining the outcome of many of the most important decisions over the past decade. There could not be a more significant opportunity for President Bush to impact the direction of the high court than with the replacement for Justice O'Connor.

Family Research Counsel: Justice O'Connor Retires From Supreme Court

Family Research Council thanks Justice O'Connor, the first woman on the United States Supreme Court, for her nearly twenty-four years of public service. FRC President Tony Perkins has released the following statement:

Eagle Forum: Supreme Court Vacancy Petition to President Bush

Today, Supreme Court Justice Sandra Day O'Connor announced her retirement from the court. This marks the beginning of certainly grueling fight over her replacement. O'Connor, though appointed by President Reagan as the first woman to serve on the Supreme Court, was not a strict constructionist. Her rulings in favor of abortion and restrictions on campaign speech suggest she was a disappointment to President Reagan.

Religious Beliefs of the Pilgrims

What religious beliefs did the Pilgrims have, that made them so intolerable to the English authorities? The following is a list of some of the religious issues of the day, and the Pilgrims' beliefs regarding them. The most commonly-owned book in early Plymouth Colony (outside of the Bible and psalm book) was John Dod's "Exposition on the Ten Commandments", followed by pastor John Robinson's "Observations Divine and Moral".

Schiavo's Remains Buried Amid Acrimony

TAMPA, Fla. -- The burial of Terri Schiavo's cremated remains didn't bring an end to the acrimony between her husband and her family. Michael Schiavo angered his late wife's family Monday by not notifying them about the burial beforehand and by inscribing on her bronze grave marker the words "I kept my promise." Michael Schiavo _ who said he promised his wife he would not keep her alive artificially _ also listed Feb. 25, 1990, as the date his wife "Departed this Earth."

Polygamy Sect Leader (Mormon/LDS) Indicted

PHOENIX — The leader of a polygamous sect has been charged with sex crimes for allegedly arranging a marriage between a teenage girl and a 28-year-old man who was already married, prosecutors said. Warren Jeffs, president of the Fundamental Church of Jesus Christ of Latter Day Saints, was charged with counts that include conspiracy to commit sexual conduct with a minor, prosecutors said Friday. If convicted, he could face up to two years in jail. Authorities do not know where Jeffs is and were hoping the release of his name would help result in his arrest. Jeffs has not been seen publicly in more than a year and is thought by some to be in Texas on a new church ranch.

UNMASKING THE TRUTH ABOUT WITCHES

Witches Seek Mainstream Status. To be sure witches are out of the broom closet and walking down main street. In fact, they are going to great lengths to sanitize their reputation and remake their image. That is easy to see when you see media articles with titles like - Witches spell it out: Don't Stereotype Us, and I Am Not A Wicked Witch. In the process of trying to remake themselves to be acceptable to mainstream Americans they use deceptive schemes, old tricks and dirty lies to accomplish their goal. The following are but a few examples.

Time to Boycott Carl's Jr.(Hardee's)?

I saw the new Carl's Jr. commercial, featuring Paris Hilton, last night while watching 24. All I can say is, it was soft-core porn at its best. I was embarrassed watching it with my wife. Is it time to get the message to Carl's Jr. that this is an inappropriate way to sell burgers? Is a boycott in order? Wadda ya think? --- More to come on this one.

<http://ruminations.blog.com/209301/>

What Carl's Jr. Offers for Sale is Beef Burgers, But What it Serves on TV is Smut ...

I don't see how Carl's Jr. and Hardee's can prosper without the patronage of millions of adults who are concerned about the erosion of decency in the mainstream media and the effects that pornography and 'popular culture' (like the prurient Carl's Jr. ad) are having on youth. "Barring an emergency, I won't be stopping at Carl's Jr. or Hardee's in the future, and I would encourage other adults who are concerned about the decline of moral values to also pass them by."

Narnia Movie a Minefield for Disney

The story is a parallel of the death and resurrection of [Jesus] Christ: C.S. Lewis was one of the greatest Christian thinkers of the last century. His books are read, reread, quoted, excerpted, and passed along almost like religious tracts by many Christians, and Christians -- who already have a love/hate relationship with Hollywood -- will want to make doubly sure that a film version of one of the best-loved novels in Christendom remains faithful to its message of sacrifice and redemption. If the film downplays or dilutes the Christian message in any way, count on an outcry.

The Case for Creationism

Is there any scientific evidence of evolution? We wrongfully teach it in schools evolution as if it were a truth and not what it is - a far out whacko theory.

<http://www.bibleprobe.com/creation.htm>

THE MOON CREATION AND COMPOSITION: THE APOLLO MISSIONS

Does all of this prove that creation scientists have been shown to be correct, and all attempts to contrive an evolutionary explanation for the origin of the moon will be abandoned? Of course not. But the results so far are precisely what creation scientists expected. That is, no theory postulating a naturalistic, mechanistic, evolutionary origin of the moon will be consistent with the actual data derivable from the moon because it did not arise as the result of such a process. On the other hand, if the data could be made to conform to an evolutionary theory on the moon's origin, reasonable or not, evolutionists would be proclaiming victory. Headlines on the front pages of practically every major newspaper in the world would have proclaimed, "Moon data solve mystery of its origin." Of course' no such headlines appeared. To evolutionists, in spite of the wealth of data gathered from our visits to the moon, or perhaps we should say, because of the data obtained from our visits to the moon, its origin remains as mysterious as ever.

Photos of Jerusalem - Dome of the Rock - Muslim Shrine

Built atop the earlier location of the (Jewish) Temple, the Dome of the Rock was built by the Muslim ruler Abd el-Malik in 688-691. Because of its situation on bedrock, the numerous earthquakes over the centuries have not caused significant damage to the structure (unlike its neighbor Al Aqsa mosque). This shrine was covered by a lead dome from 691 until it was replaced with a gold-colored covering in 1965. Because of rust, the anodized aluminum cover was again replaced in 1993 with a gold covering.

Noah's Ark? Book now Available

The Boat Shaped Object on Doomsday Mountain. On June 20, 1987, the Turkish government officially dedicated an area in eastern Turkey as the site of Noah's Ark. Near the Iranian and Russian borders, the dedication of this site and the surrounding area as a national park was a strong affirmation in the archaeological world. Ron Wyatt, of Nashville, Tennessee, was the guest of honor at that ceremony. The Turkish authorities credited Ron, an amateur archaeologist, as being directly responsible for substantially proving that the boat shaped object on these Ararat mountains is indeed the remains of the ancient ark.

Peppered Moth Evolution Kit

In 1953 Bernard Kettlewell performed a set of experiments that proved that predation by birds was responsible for the peppered moth population changing from mostly white to mostly black. The reasoning was that industrial pollution had caused the barks of trees to turn dark... There's just one problem. Some are beginning to say that the case of the peppered moth may be one of the biggest cases of scientific fraud of the twentieth century, up there with the (Piltdown Man). You see, moths tend not to rest on tree trunks during the day; their main predators are bats, not birds; and anyway, birds see more in the UV range than people do, so what looks camouflaged to us may not look so to a bird. Given this, how did Kettlewell achieve his suspiciously perfect results? Rumors of fraud are in the air.

Christian Penpals for Those in Prison

We are a group of Christians reaching out to the lonely men and women in prison. Most of the inmates contacting us have already accepted Jesus or they are seeking God. All of them are lonely, discouraged, and rejected; in need of a caring friend. Jesus has a special place in His heart for hurting people and He calls us to minister to their need. In Matthew 25:35-36, Jesus says "I was sick and you visited me; I was in prison and you came to me." Then He explains "In as much as you did it to one of the least of these my brethren, you did it to Me." In Luke 5:32-32, Jesus says "Those who are well have no need of a physician, but those who are sick. I have not come to call the righteous, but sinners, to repentance." Please read also Psalms 107:9-16, Isaiah 42:7, and 2Cor.5:17.

Signs in Nature

The Bible says that in the last days there would be signs in the sun, moon, stars, etc. as well as an increase in natural disasters. These signs would be like "birth pangs" to warn of the lateness of the hour, although they would manifest more profoundly during the Tribulation. We see their increase, however, in our day. They serve as a warning and in some cases as judgments from God before the Tribulation.

The Jesus Nebula - The Face of Jesus Christ

Scientists at NASA see cones, pillars, and majestic flowing shapes abounding in stellar nurseries where natal clouds of gas and dust are buffeted by energetic winds from newborn stars. Others are inspired by the wonders of the God's creations and see something different. Look at this image from a distance, can you see the image of Our Lord, Jesus Christ, crowned by a sparkling ring of thorns as stars?

THE ANSWER: WHAT IS THE GOSPEL?

There is a wonderful book which contains everything we need to know to live our lives the way our Creator intended (II Timothy 3:16,17). There are countless truths to live by found in this book, God's message to mankind, but if we were to boil everything down to its most basic message, this book, the Bible, makes three things clear...

From Ordinary to Great [Small Group Ministry]

So often, we think that in order to build community or reconnect with God we need to do things that require a great deal of equipment, preparation, and resources. We often feel like spiritual amateurs, and the idea of leading a small group or ministry, of taking others on a spiritual adventure, can seem daunting. But in today's featured article, "From Ordinary to Great," Lifetogether's Brett Eastman reminds us that God's in control of our communities, and the only piece of equipment we really need is an open heart.

G3 Stories Devotions Links

Welcome to G3online.org! If you are wondering, G3 stands for Give God the Glory. "So whether you eat or drink or whatever you do, do it all for the glory of God." -- 1 Corinthians 10:11. This is a place where you can be encouraged and be an encouragement to others as you share what God is doing in your life. By doing so, God will be glorified. Psalm 96:3 says, "Declare his glory among the nations, his marvelous deeds among all peoples." (NIV) This is our mission. We are a Bible centered, non-denominational organization.

Christian Testimony [Egypt - Muslim]

I am Ibrahim who, for the sake of my family's security, go also by the nickname Timothy Abraham. I am a simple Egyptian from the Delta region. Farms surrounded me from every side with streams of the luxurious Nile River endowing life with fertility. I had a strong Islamic upbringing in my childhood, studying in the village shop for teaching the Quran (al-Kutaab). They taught me to fear God (Allah in Arabic) who created the Heaven and the earth in six days. There was not a single reason to doubt a religion which emphasized fearing God, doing good work and living a moral life. The recitation of the Quran was meant to produce a sense of tranquillity. I enjoyed the Sufi circle of worship, as they adored the person of Muhammad. This was Abu-al-Azayem's group. I was searching for more closeness with Allah Almighty.

<http://www.christiananswers.net/hope/>

Hope: A Better Day is Coming (Modern View - New Zealand)

Hope means that our future as believers does not have to develop from what is presently possible, but from what is possible for God. Christian hope is essentially creative; it believes and expects new things. We believe in a God who says "Behold, I make all things new" (Revelation 21:5), a God "with whom all things are possible" (Matthew 19:26), a God who "gives life to the dead and calls into existence the things that do not exist" (Romans 4:17). Hope is optimistic in the best sense. It opens us to genuinely new realities and experiences, revealing new possibilities for us who believe, delivering us from despair, and freeing us for loving service and hope-filled mission in society.

Why I'm Thankful to be an American

The conventional wisdom is that immigrants come to America for one reason: to make money. It is endlessly conveyed in the "rags to riches" literature on immigrants, and it is reinforced by America's critics, who think America buys the affection of immigrants by promising to make them filthy rich. But this Horatio Alger narrative is woefully incomplete; indeed, it misses the real attraction of America to immigrants, and to people around the world. It misses why the pilgrims came here nearly four hundred years ago, and why we celebrate Thanksgiving each year.

Greater Europe Mission

Impacting Europe by serving, prayer and supporting. Recently, the director of a Finnish Bible institute and the pastor of a key city church in Stockholm pleaded with me for more GEM missionaries. They requested as many as we could send, and they want them now. Leaders in Europe are asking for our help and God is opening the doors for us in exciting new ways. Jesus said, "The harvest is so great but the workers are so few -ask Him (the Lord) to send more workers".

How the Tanners became Christians {Ex-Mormon}

Jerald and Sandra Tanner were raised in the LDS faith, both with a strong Mormon family history. Jerald is the great-great-grandson of John Tanner, well known for his sizeable financial contributions to Joseph Smith and the LDS church in 1835 when the church was deeply in debt. Sandra Tanner is a great-great-granddaughter of Brigham Young, the second president of the Mormon Church.

Archeologists claim they've found John the Baptist's cave

August 17, 2004 BY KARIN LAUB KIBBUTZ TZUBA, Israel -- Archeologists think they've found a cave where John the Baptist baptized many of his followers -- basing their theory on thousands of shards from ritual jugs, a stone used for foot cleansing and wall carvings telling the story of the biblical preacher. Only a few artifacts linked to New Testament figures have ever been found in the Holy Land, and the cave is potentially a major discovery in biblical archeology.

Ancient Mysteries: John The Baptist Cave And Skull Discovery

Amman: A cave unearthed last year under the remains of a fourth century Byzantine Church on the east bank of the Jordan River was the winter home of the Christian New Testament prophet John the Baptist, project director Mohammad Waheeb said yesterday. But experts are still investigating the identity of a human skull found near the cave to determine if it could also belong to John, who the Bible says was the cousin of Jesus Christ, Waheeb said.

Fiber Optics (found) on Noah's Ark?

A Picture is worth a thousand Words. Wyatt Archaeological Research photos tell the story. In 1985 a six-inch hole was drilled into the area marked by an arrow, as seen on the photo above. By way of that hole, matrix material samples were taken from within a cavity. Careful examination of the samples with the naked eye revealed fibers that appeared to be hair. In 1993 these fibers were evaluated by a fiber expert in one of the nations leading crime labs. Scroll down for the photos.

Faking Church Do we really want to serve God - or is it more rewarding to just look the part?

Ned sits down next to his wife, Tanya, in the church his family has called home for many years. He smiles, waves, jokes, and engages in friendly banter with everyone around him. He is a fixture in the church, having been involved in leadership for many years. Ned is well known, well liked, and deeply admired for his spiritual life. Frank, one of the men he has discipled, waves to him from across the church. Ned smiles and waves back. He remembers sharing with Frank how to live the Christian life. Suddenly he feels a pang of guilt.

When Job-Hunting: Dress for Success

Should you be judged by what you wear? Perhaps not, but the reality is, of course, that you are judged. Throughout the entire job-seeking process employers use short-cuts -- heuristics or rules of thumb -- to save time. With cover letters, it's the opening paragraph and a quick scan of your qualifications. With resumes, it is a quick scan of your accomplishments. With the job interview, it's how you're dressed that sets the tone of the interview.

July 28, 1824 Feuerbach: the Theologian Who Wasn't

The story of Christianity is also the story of attacks on Christianity. On this day July 28, 1804 Ludwig Andreas Feuerbach was born. His father was a well-known jurist who exerted tremendous influence in the field of German law. He was also a petty, moralizing tyrant at home who betrayed Feuerbach's mother for another man's wife. It has sometimes been remarked that the ranks of atheists are most often joined by men who hate their fathers. Feuerbach, who had much reason to dislike his father, attacked Christianity mercilessly. Like his follower Marx, he adopted materialist presuppositions and therefore considered his critique of the faith scientific.

MOREY, Samuel [1762-1843] -- American inventor

Son of Gen. Israel Morey, an officer in the Revolutionary war, who served on the frontier. He removed to Orford, N. H., with his parents in 1766, and as he grew to manhood turned his attention to mechanics and chemistry. From 1780 to 1830 he devoted himself to practical experiments upon steam, heat and light, and to propelling boats by steam. Between 1790-93 he took out several patents for steam machinery, some of the models of which are in the possession of the New Hampshire Antiquarian society, and his prophecy of a boat propelled by steam was ridiculed by his neighbors

Samuel Morey: Inventor Extraordinary

THE ADVENT of the horseless carriage occurred within the memory of many persons living today. If the world had listened to a man by the name of Samuel Morey, an inventor who patented an internal combustion machine as early as 1826, the automobile would have been tooling along the roads of America some half a century and more before the construction of Charles E. Duryea's first gasoline motor car in 1891-92.

On this occasion slow motion exposes the sleight of hand, but remember how the magician works: he can make almost anything seem real if he can make his audience look in the wrong place at crucial moments.

The Challenge of Maintaining a Christian Testimony in this Culture

Postmodernism is like a rising tide, blurring the character lines that were once clearly imprinted in our culture. Objective knowledge is unaccepted, the absolute is rejected, and the authority of God's Word is laughed off as foolishness. As a result, this generation is left adrift without an anchor.

Nikola Tesla: He powered the world (HAARP) Predecessor

In Colorado Springs, where he stayed from May 1899 until 1900, Tesla made what he regarded as his most important discovery-- terrestrial stationary waves. By this discovery he proved that the Earth could be used as a conductor and would be as responsive as a tuning fork to electrical vibrations of a certain frequency. He also lighted 200 lamps without wires from a distance of 25 miles (40 kilometers) and created man-made lightning.

Time Changer - Christian Movie DVD Recommendation

What if you could see the impact your beliefs will have on future generations? One man will in "Time Changer." Treat yourself, family and friends to this Exceptional Christian movie now available on DVD. It is a magnificent thought provoking movie based on the idea of what would a nation be like if God were left out from it's regular teachings, structure, and morality. The movie starts out in 1890 and Time Travels to the present day. But guess what? We have time traveled that distance as a Nation and as a people so it is not science fiction but known facts that the movie material is traveling through. The DVD should be available for rent at the local video stores and following is a link to the movie's website.

Hitler - Fascism from a (Muslim view) Qur'an is quoted

Looking at these three periods, we see that fascist culture belongs to the first and third. In other words, fascism was born out of pagan culture, and was later resurrected as a part of materialist culture. There was no fascist ideology or practice throughout the thousand or so years when Christian culture dominated Europe.

Warning: Hitler was a New-Ager (New Age Website)

Hitler decided that Judaeo-Christianity had to be eradicated from the planet ... Yes, Hitler was a new-ager. If the New Age Movement ever succeeds in its dream of a world-government with a one-world religion (as per the U.N. Earth Charter) the end result will not be a blissful utopia but a fascist nightmare that will make the Holocaust look like a picnic ... The new age movement is in direct opposition to the True God. It is indeed on the side of the Devil, satan himself. People who are starting to get involved in new age thinking need to seriously ask themselves if they really want, ultimately, to go down that road - whilst they still have time to decide ...

Biblical Proof that Jesus is God

In many, many places the Bible references, referrers to and calls Jesus, God. Here are just a few! 1 Timothy 3:16 "And without controversy great is the mystery of godliness: God was manifest in the flesh, justified in the Spirit, seen of angels, preached unto the Gentiles, believed on in the world, received up into glory."

Bible number meanings and usage

There are a handful of numbers that commonly reoccur throughout the entire Bible while other numbers generally do not even occur at all. Their usage and grouping is far to ordered and to consistent throughout the entire Bible to be considered irrelevant or incidental. Following is what is considered to be their common meaning.

7 Miracles of Jesus from the Gospel of John

These are Seven Miracles performed by Jesus and recorded in the Gospel of John by John a disciple and one of the original 12 Apostles of Jesus. John was an eyewitness present at each of these seven miracles. These miracles are illustrations representing the miracles that Jesus is currently doing in the life of each and every Christian.

The resurrection of Jesus and why it is important to humanity

The resurrection of Jesus shows to us and proves to us that Jesus is God just as He said that He is. No one else has ever bodily returned from death. We can now be certain that there is a God (Jesus), that our sins are forgiven by God and that we who believe in the forgiveness of our sins, because Jesus died in our place, we too can look forward to our own resurrected life in the presence of God (heaven).

New Year's Day - History, Traditions, and Customs

BC-AD VS BCE-CE

I have seen some religion books from my child's Catholic School that now have B.C.E and C.E. instead of B.C and A.D. I questioned one of the sisters about it and she said that the Church is now using Before Common Era and Common Era so as not to offend people that are not Christian. Another teacher said that it actually means Before Christian Era. I have read some sites that the use of BCE and CE started with some masons. I personally don't see, if the Church is getting rid of BC and AD, why She has to apologize for being Christian. Is the Church really changing or is this another ploy of liberals in the Church to compromise? Not only that but the religion book uses inclusive language for example one sentence says that "..God wants us to love God" instead of saying "God wants us to love Him." The whole book was missing the references of God as a male figure.

The Amazing Bible World History Timeline

AD stands for Anno Domini or Year of our Lord referring to the year of Christ's birth. BC stands for Before Christ. CE is a recent term devised to fit with to solve the year 0 problem. It refers to Common Era and is used in place of A.D. BCE refers to Before Common Era.

The Calendar in Anno Domini (AD)

We know what year we have now, and some may even have seen the letters AD. But, do you know what they mean? Those who do know what the letters mean will realise that the letters properly go before a date, not after it. Furthermore, it is important to know that this system is not really a calendar but rather a benchmark by which to set years in chronological order.

Honoring America's Veterans Then...

In 1801, President Jefferson refused to pay tribute to North African rulers who preyed on ships from Western Christian countries. He sent the U.S. Navy and the Marines "to the shores of Tripoli." To this day, Marine officers carry the curved Mameluke sword, a reminder of that war. Jefferson was really fighting America's first war on terror. We called them Barbary Pirates then, but they were Muslim hostage-takers and slave traders. It sounds like Sudan today. Even then, Hitchens said, America was a nation to be reckoned with. The arrival of U.S. forces in North Africa showed Europe that we would fight rather than pay tribute to Arab kidnapers. In those days, the rulers of Europe preferred to pay off the pirates. Many of them still do. Today, we thank God for all those whose sacrifice and valor have kept us free.

France, Liberalism and Jihad

What is happening in France has been brewing in Old Europe for years. The BBC speaks of "youths" venting their "anger." The BBC is wrong. It is not anger that is driving the insurgents to take it out on the secularised welfare states of Old Europe. It is hatred. Hatred caused not by injustice suffered, but stemming from a sense of superiority. The "youths" do not blame the French, they despise them.

Kansas State School Board Approves Teaching Standards Skeptical of Evolution

TOPEKA, Kan. - New science standards for Kansas' public schools, criticized for promoting creationism while treating evolution as a flawed theory, won approval Tuesday from the State Board of Education. The board's 6-4 vote, expected for months, was a victory for intelligent design advocates who helped draft the standards and argued the changes would make teaching about evolution more balanced and expose students to legitimate scientific questions about the theory.

Thanksgiving Holiday Resources and Info

Christians look forward to the time of the year when we celebrate two important holidays, Thanksgiving and Christmas. These holidays have their beginnings and roots in Christian celebrations. The word holiday actually means "holy day"; hence these events should be remembered and celebrated in a holy manner. We have strayed from that purpose over the years as we have embraced many unholy practices and worldly customs and added them to our "holy days."

Was There Ever a State of Palestine?

"In fact, there never has been a state called Palestine, nor have the Palestinian Arabs ever been an independent people, and Jerusalem never has been an Arab or Muslim capital. Jerusalem has had an absolute Jewish majority for more than a century (and a plurality before that), and for the last three thousand years, only the Jewish people have called it their capital...To inveigh against 'Judaizing' Jerusalem is like protesting the Arabization of Cairo."

Israel and the US - A God-ordained alliance?

Part I: When God brought about the independence of the United States in 1776, He was supervising the founding of a nation He purposed to have in place about two centuries later as the world's mightiest superpower. And His reason for elevating America to this position was so that she would ally herself with the surviving remnant of the Jewish people, help them take root again in their national homeland, and support them in their struggle against a hostile world.
